LACDMH IBHIS CONFIGURATION February 8, 2013

PURPOSE OF THE APPLICATION AND ENROLLING PRACTITIONERS:

In order to prepare for the Integrated Behavioral Health Information System (IBHIS), LA County DMH all providers to complete the Practitioner Enrollment process for all individuals who will be providing services through their agency. This involves: 1) ensuring information is current and correct and 2) gathering additional information regarding discipline/job function for all Rendering Providers (hereafter referred to as Practitioners). Only Practitioners set up in the application will be able to submit claims (including direct services, MAA, COS, and QA) in IBHIS.

PRACTITIONER INFORMATION IN THE APPLICATION:

The application contains the information for each Practitioner in the Integrated System (IS) as of February 4, 2013. For Directly-Operated agencies, the Practitioners are identified by Billing Provider. For Contract agencies, the Practitioners are identified by Legal Entity. Practitioners cannot be added through this application. As we get closer to the roll-out of IBHIS, you will have another opportunity add in any new Practitioners.

WHAT YOU NEED TO DO AND WHY IT'S IMPORTANT:

We are asking that you confirm the data and enter in additional information for each Practitioner at your Legal Entity/Billing Provider in accord with the directions below. The information you provide in the application will assist in configuring IBHIS and ensuring the system works properly. The selections made in the application will impact:

- 1. Procedure code usage;
- 2. Funding availability;
- Progress notes, co-signature and electronic signatures (for Directly-Operated staff);
- 4. Compliance with State and Federal laws and regulations.

PROCESS AND ACCESS TO THE APPLICATION:

In order to access the application, you must be on a list of approved users that have been identified by each Legal Entity/DO program. Legal Entity approved users must have RSA card access and DO approved users must have network access. The application can be accessed at:

Contract Providers (RSA and IS required)
https://dmhapps.co.la.ca.us/IBHISPE

Directly Operated and DMH Users http://dmhhqweb2/IBHISPE

LACDMH IBHIS CONFIGURATION February 8, 2013

The approved user must complete the application for all Practitioners. To complete it, the approved user must always coordinate with the Practitioner to ensure the information put into the application is consistent with the Practitioner's:

- 1. Job function/description;
- 2. Scope of practice;
- 3. Information found in the National Plan and Provider Enumeration System (NPPES) and State Licensing Boards.

Note: Changes made in the application will NOT be made in the IS. If a change is needed in the application, it likely means that the information in the IS is NOT accurate. The change will NOT be made in the IS until information is submitted to DMH CIOB via the Rendering Provider Application.

DUE DATE:

All Practitioner records must be reviewed and marked with Submission Status "Completed" or "Do Not Enroll" by March 1st, 2013 for Directly-Operated programs and IBHIS Pilot 1 Legal Entities.

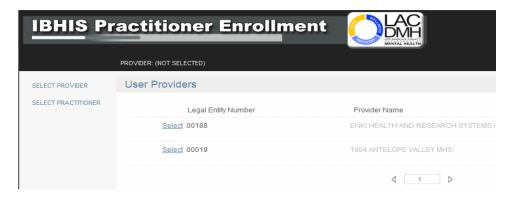

QUESTIONS:

Technical questions regarding the application (such as logging in or error messages) should be directed to: DMH Helpdesk 213-351-1335

Questions regarding specific field values to assign in the application (such as which discipline to choose, how to complete the application, which fields are required) should be directed to: Quality Assurance Division 213-251-6855

GETTING STARTED

When you first log in to the application, you will see a list of the programs for which you have been authorized to complete the practitioner enrollment process. From this screen left click the [Select] button next to the provider you want to work.

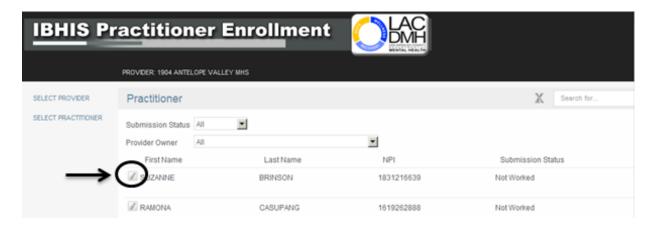

LACDMH IBHIS CONFIGURATION February 8, 2013

This will take you to the Practitioner page which provides a list of all practitioners current associated to that program/legal entity. There are several things that you can do to help you work the list. These include <u>filtering</u> the list by either the "Submission Status" or "Provider Owner" (both of which are described later). You can also <u>search</u> for a specific practitioner by name by typing it into the search box at the upper right corner. The list including all associated data elements can be <u>downloaded</u> into an Excel spreadsheet by clicking on the Excel logo next to the search box. Finally, you can <u>sort</u> the list on the screen simply by clicking on the header of the column that you want to sort by.

To begin entering and validating data related to a particular practitioner in the Enrollment application, left click the edit box to the left of their first name.

FIELDS IN THE APPLICATION AND DIRECTIONS ON COMPLETING:

Required fields are in RED; information only fields are in GREEN. Some fields become required base on selections made in other fields.

Last Name and First Name: Confirm the Practitioner's First and Last Name is correct. Confirm the rendering Provider's name is correct (including spelling). If information is incorrect, make the correction.

LACDMH IBHIS CONFIGURATION February 8, 2013

Provider Owner: Each Practitioner has been identified with an "Owner" or agency that is responsible for validating all the information for that Practitioner. If a Practitioner is providing services at multiple agencies, the "Non-Owner" may update the Practitioner's information as well to ensure the Practitioner is set up with the appropriate information. However, if there are discrepancies between what the Owner and Non Owner enter into the application, the Quality Assurance Division will be contacting agencies to clear up the discrepancy.

Date Last Seen at the Owner: The date of the last claim submitted by the Owner agency.

 This field will be blank if the Practitioner has not submitted any claims at the Owner agency.

Date Last Seen at Your Agency: The date of the last claim submitted at your agency.

- Used to assist in determining whether or not the Practitioner needs to be enrolled at your agency in IBHIS.
- This field will be blank if the Practitioner has not submitted any claims at your agency.

Disenroll at this Agency: If a Practitioner no longer works at your Legal Entity (for Contractors) or DO agency (for Directly Operated), <u>or will not be with the program as of September 2013</u>, check the "Disenroll at this Agency" box. Selecting Disenroll will not impact their current ability to claim through the IS – This applies only to whether they will be set up in IBHIS.

- There is no need to complete the rest of the application if you check this box. You can go straight to marking the submission status as "Do Not Enroll" and click [Save].
- If you know the Practitioner will be leaving your agency prior to September 2013 you should also check this box so the Practitioner is not set up in IBHIS (e.g. a student trainee at your agency who will complete their training at your agency this coming May; a locum tenen psychiatrist who will be leaving).

NPI: Confirm the Practitioner's NPI is correct.

- NPI must be Type I NPI (Type I NPIs are used to identify the Individual whereas Type 2 NPIs are to identify the Organization).
- If no NPI is listed, it means the NPI in the IS was either being used by multiple Practitioners or was a Type II NPI.

Gender: Confirm the gender of the Practitioner.

Ethnic Origin: Identify the ethnic origin for the Practitioner. Only one may be chosen.

LACDMH IBHIS CONFIGURATION February 8, 2013

Discipline: Enter the Practitioner's discipline. Only one may be selected.

- Determines which procedure codes may be used/claimed for by a specific Practitioner.
- What is chosen will limit choices for Category field and Credentials field (DO Only for Credentials).
- If a Practitioner has more than one discipline, choose the discipline code for which the Practitioner was hired (e.g. staff was hired as a Nurse Practitioner but is also an RN Nurse Practitioner would be chosen).

Category: Enter the Practitioner's Category of discipline. Only one may be selected.

- Impacts fees charged for services provided by Practitioners and the suffix on the CMS form.
- For Directly-Operated programs, impacts whether or not a co-signature is required on progress notes.
- What is chosen will determine if a license/registration/certification number or DEA license number are required.
- What is chosen will limit the taxonomy choices available.

Primary License/Reg/Cert Number: Verify the license/registration/certification number for each Practitioner (if applicable). The license/registration/certification number entered must be a current and valid license/registration/certification. Both the letters and the numbers should be listed (e.g. LCS 27415).

- A number is required for the following Categories of Practitioners:
 - ✓ Social Worker (Registered, Licensed)
 - ✓ Medical Doctor
 - ✓ Doctor of Osteopathy
 - ✓ MFT (Registered, Licensed)
 - ✓ Registered Nurse
 - ✓ Nurse Practitioner
 - ✓ Licensed Psych Tech
 - ✓ Pharmacist
 - ✓ Physician Assistant
 - ✓ Financial Worker
 - ✓ Licensed Psychologists
- A number should be entered for Psychologists who are licensed. For waivered Psychologists, a number is not to be entered.
- You may enter a number for other Categories if a number is available.

LACDMH IBHIS CONFIGURATION February 8, 2013

(DO Only) DEA ID: Confirm the DEA license number for any Disciplines who are required to have a DEA License.

- A DEA license number is required for the following Categories of Practitioners:
 - MD
 - DO
 - NP
 - Pharmacist
- The DEA ID will be blank if the DEA number in the IS is currently associated with more than one Practitioner.

DEA Expiration Date: Confirm the DEA expiration date is the expiration date for the current DEA license.

• Expiration date is required for the Categories listed above requiring a DEA number.

Taxonomy: Select the appropriate taxonomy for each Practitioner.

- Only one (1) taxonomy should be chosen based on the Practitioner's Category and/or job function/description for which they were hired.
- Must be consistent with the Practitioner's selected Category.
- The complete list of acceptable taxonomies with descriptions is listed in the IS Codes Manual starting on page 122 and at the end of this document.
- The taxonomy chosen must always match a taxonomy the Practitioner has identified in the National Plan and Provider Enumeration System (NPPES).

Practitioner Requires Additional Taxonomy(ies): Check this box if the Practitioner requires more than one taxonomy. Only in rare situations should a Practitioner have two (2) taxonomies.

- If a Practitioner has been hired in two different capacities, then they may have two taxonomies. Example, a Practitioner who was hired part-time as a case manager and was also hired part-time to work as an MSW intern would have two taxonomies: care coordinator and student.
- Call the QA Division if you would like to request 2 taxonomies (213-251-6885).

Justification: If you checked the box requesting more than one taxonomy for the Practitioner, provide the justification for the request from a dropdown list. Only one justification may be selected.

LACDMH IBHIS CONFIGURATION February 8, 2013

(LACDMH Directly Operated ONLY) Practitioner Credentials: Enter the Practitioner's credentials. Only one may be selected.

- For Directly-Operated programs the credential(s) chosen will be associated with the Practitioner's electronic signature.
- Choose the credential that best represents and justifies the services the Practitioner will be providing.

Submission Status: Select submission status.

- In Progress still need to verify some of the information
- Completed have verified all the information and the Practitioner record is ready for conversion to IBHIS
- Do Not Enroll the Practitioner will not be enrolled in IBHIS for your agency

Practitioner Language: Enter languages, in addition to English, used during current work assignment. Additional languages can be added by clicking on the "+" sign to the right of the page then selecting the language from the drop down menu. Languages can be deleted by checking the box next to the language then clicking the "X" in the upper right corner of that screen.
